

## **Community Career & Training Sites Now Open**

Through the collaborative efforts of the  
Pike/Wayne Business Education Partnership and the Pike County Public Library  
*facilitated by Workforce Wayne*

At the Community Career & Training sites, the public will find new computers, new electronic and print resources, and a new, easy-to-find centralized location for all of the books that the libraries offer on careers, career testing, resumes, cover letters, and occupational guidance.

The Community Career & Training sites are available for customers during all library hours; however, there is time set aside each week that is staff-supported by Pike County service partners to provide one-on-one assistance for those who need it. The Milford Branch of PCPL workforce support hours (by appointment preferred) are on Mondays from 4-7pm; the Dingman Township Branch has workforce support hours on Wednesday evenings from 4-7pm (also by appointment preferred); and the Lackawaxen Township Branch has workforce support hours by appointment only. Come in and check out what the library has to offer.
